

2025 FOCUS™

FIXED OPS PLATFORM

WHERE WE ARE NOW.

Factory mandated programs and 'marketing companies' are hurting dealers. **'They don't know they're wasting dealers' money unnecessarily or they don't care.** Either way, it's a problem.'

EXAMPLES:

- **50% of DMS** data is inaccurate. Nothing is done to address this.
- **70% of customers** haven't returned for service in over a year.
- Factory programs focus on recent new car buyers.
- Used car buyers are largely overlooked in marketing – they rarely return for service.
- **Only 3 out of 10 vehicles** out of warranty return for service.

2025: THE YEAR TO **FOCUS** ON ONE THING

SERVICE DEPARTMENT ABSORPTION

- **Less than 1%** of all dealerships have achieved **100% service absorption**
- The average absorption **rate is 48%**
- WHAT WOULD EVEN **A 20% INCREASE** MEAN FOR YOUR DEALERSHIP?

"A RISING TIDE LIFTS ALL BOATS."

The Case For Raising Service Absorption. The 'rising tide' in the dealership is service absorption. Raising the absorption rate fixes many issues across dealership departments.

- **Increase in service traffic** / RO count
- **Raises retention** / \$ per RO
- **Takes pressure off sales department** to generate operating capital
- **Allows sales to be more aggressive** – sell more cars
- **Creates more opportunity** for F&I
- **More car sales** = more service opportunity

WHERE TO START?

IT ALL STARTS WITH DATA

'DATA IS THE LIFEBLOOD OF THE DEALERSHIP'

- **An average of 50%** of data is missing or inaccurate
- **40% of VINS are bad** – customers have traded and no longer own the vehicle the DMS says they own
- **50% of email addresses** are inaccurate or missing

JUST 3 EXAMPLES OF HOW BAD DATA AFFECTS DEALERSHIPS

1. Wastes thousands of advertising dollars
2. Kills employee time / morale
3. Opens the door for bad reviews when customers are contacted based on erroneous data

DID YOU KNOW?

Customers looking for service specials or to schedule an appointment on dealership websites **outnumber car shoppers.**

Yet, it's difficult to find what they are looking for **quickly and easily.**

If it's not fast and easy, the customer is out of there and you're **out of luck.** They will never go back to your website again.

So, what's the solution?

"SERVICE ONLY"

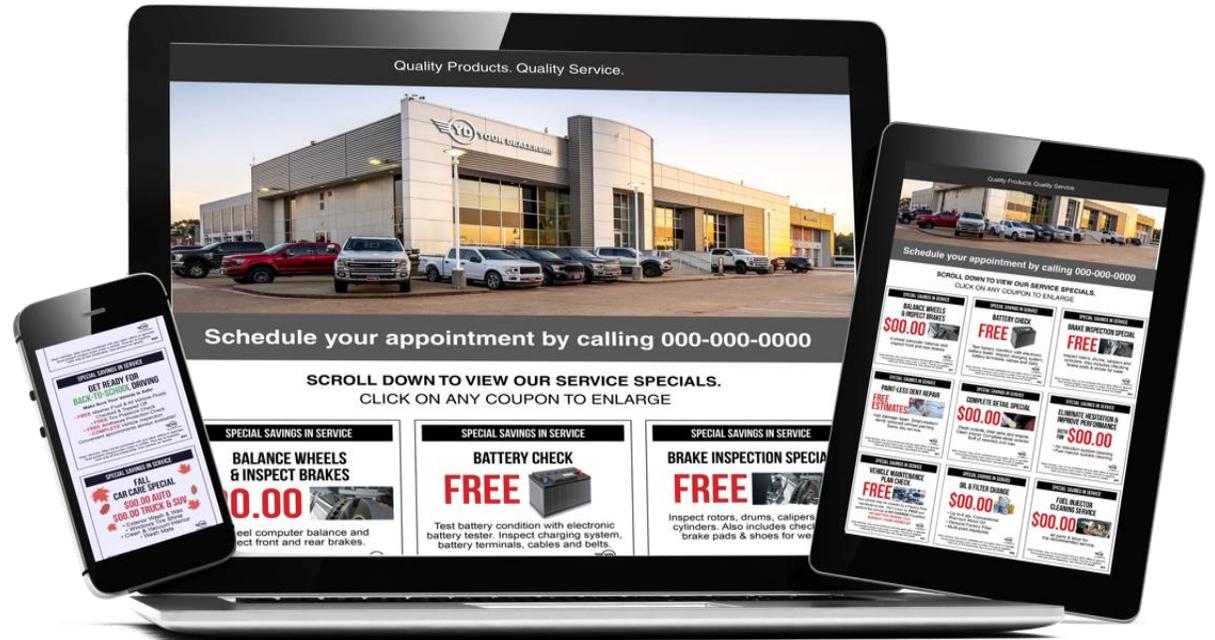

CUSTOM CAMPAIGN LANDING PAGE

The custom landing page is a continuation of the interactive direct mail and email components and features unlimited additional ad space for:

- Digital coupons
- Customer educational **focus** videos
- Social media integration
- Links to your dealership's website

Customers access the site by scanning a personalized QR code, clicking on links in emails or The USPS Informed Delivery notification – bypassing Google and sending customers directly to you.

Engages customers quickly, easily and visually instantly. It's totally optimized for mobile use.

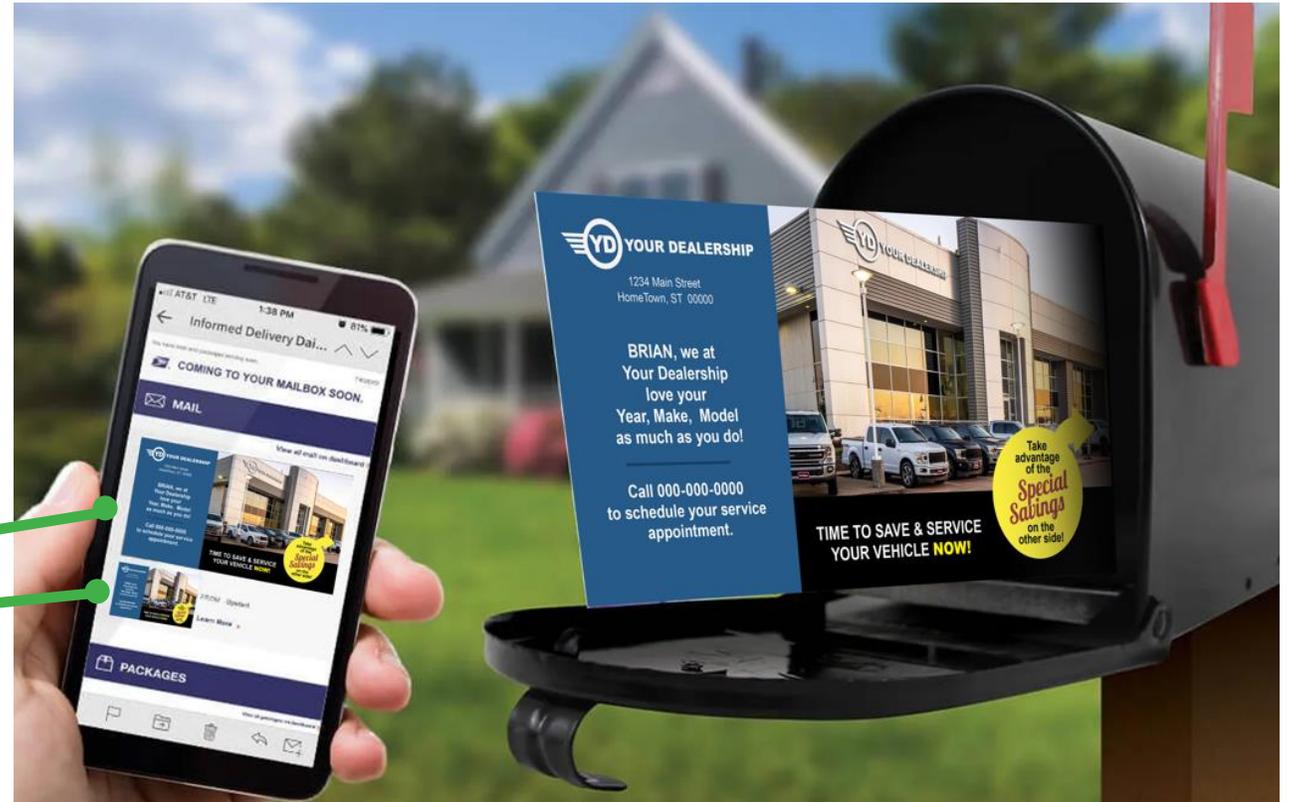

USPS INFORMED DELIVERY

Sale Closers 2025 Focus Platform is integrated with the Post Office's Informed Delivery Software.

When mail is scanned at the post office, an email preview of the mail they will receive that day is sent to the customer.

Most previews are a black and white picture of the front of the mail piece.

Your mailer preview will be a full **color picture** of the mailer, that includes a **'Ride Along'** button that customers click that takes them to the campaign landing page...**before they even get the mailer!**

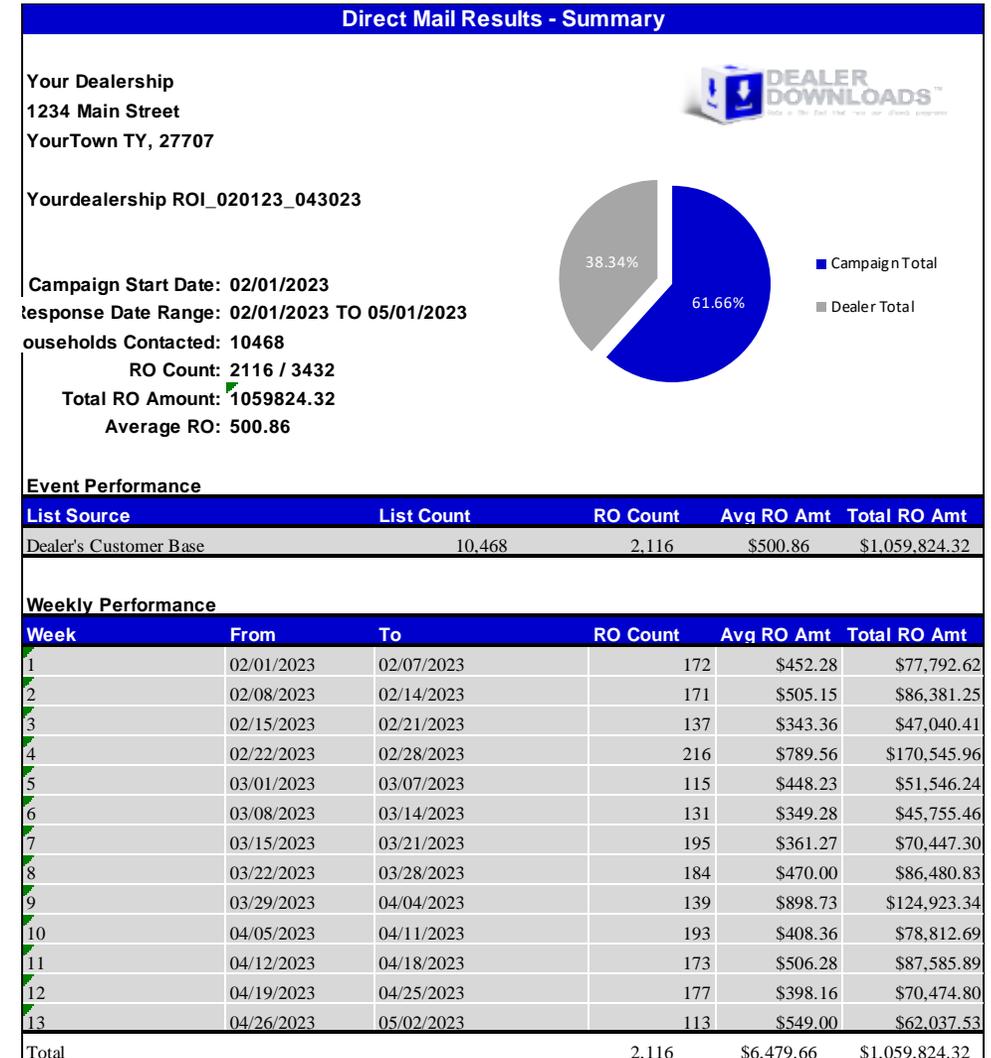

REPORTING

Most reports show you only what the marketing company or factory program wants you to see. Sale Closers' ROI Reports are the most detailed and transparent in the industry.

There are **3 sections on the report including:**

- At A Glance Summary
- Detailed Transactions
- Raw Data – everything we download from your DMS.

Our exclusive 'Days Since Last Visit' feature shows exactly how many days it's been since that customer or VIN was last in for service.

WHAT YOU CAN EXPECT

You have to 'guess' if trying something new is the right thing for your dealership.
